

AONO SAMSON OTIENO

Software Developer | AI/ML & Data Science Enthusiast

Nairobi, Kenya

Phone: +254 790 305 250

Email: aonosammy@gmail.com

LinkedIn: [linkedin.com/in/aono-sam-03134840a/](https://www.linkedin.com/in/aono-sam-03134840a/)

GitHub: github.com/AonoSam

PROFESSIONAL SUMMARY

Motivated and self-driven software developer with hands-on experience in full-stack, mobile, backend, and AI/ML development. Skilled in Python, Java, JavaScript, Dart, React, Django, Spring Boot, Flutter, and modern database technologies.

Experienced in developing RESTful APIs, database-driven applications, machine learning solutions, and software systems using modern development practices. Strong understanding of software architecture, object-oriented programming, database design, API integration, and version control. A continuous learner with strong problem-solving and analytical abilities, seeking opportunities to contribute to technology-driven organizations and grow as a professional software engineer.

TECHNICAL SKILLS

Programming Languages:

Python, Java, JavaScript, Dart, SQL

Frontend Development:

React, HTML5, CSS3, Tailwind CSS, Vite

Backend Development:

Django, Django REST Framework, FastAPI, Flask, Spring Boot

Mobile Development:

Flutter, React Native

Databases:

PostgreSQL, MySQL, SQLite, MongoDB

AI & Machine Learning:

Scikit-learn, TensorFlow, Pandas, NumPy, XGBoost, Convolutional Neural Networks (CNNs), Support Vector Machines (SVM), Data Analysis, Model Development

Tools & Technologies:

Git, GitHub, Docker, Postman, VS Code, IntelliJ IDEA, Android Studio

Core Competencies:

REST API Development, Database Design, Authentication & Authorization, Object-Oriented Programming, Software Architecture, Frontend-Backend Integration, Debugging, Version Control

EDUCATION**Bachelor of Science in Computer Science**

Kisii University, Kenya

2021 – Expected 2027

TECHNICAL EXPERIENCE**Independent Software Development**

- Designed and developed full-stack, web, mobile, and desktop software applications using modern software development technologies.
- Developed RESTful APIs using Django REST Framework, FastAPI, Flask, and Spring Boot.
- Built responsive web interfaces using React, JavaScript, HTML5, CSS3, and Tailwind CSS.
- Developed mobile applications using Flutter and React Native.
- Designed relational databases and implemented database-driven applications using PostgreSQL, MySQL, and SQLite.
- Applied software engineering principles including modular architecture, object-oriented programming, authentication, authorization, and API integration.

- Used Git and GitHub for source control, project management, and collaborative development.
- Diagnosed and resolved application, dependency, environment, and deployment issues across different development environments.

Artificial Intelligence & Machine Learning

- Developed and evaluated machine learning models using Python and Scikit-learn.
- Performed data preprocessing, exploratory data analysis, feature engineering, model training, and evaluation.
- Applied supervised learning algorithms including Support Vector Machines and XGBoost.
- Developed deep learning solutions using TensorFlow and Convolutional Neural Networks.
- Integrated machine learning models into software applications through REST APIs.
- Worked with both structured datasets and image-based machine learning workflows.

PROFESSIONAL SKILLS

- Problem Solving
- Critical Thinking
- Analytical Thinking
- Software Development
- Team Collaboration
- Communication
- Adaptability
- Continuous Learning
- Time Management
- Attention to Detail

PROFESSIONAL INTERESTS

Software Engineering • Artificial Intelligence • Machine Learning • Data Science • Full-Stack Development • Mobile Application Development • Cloud Computing

LANGUAGES

English: Professional proficiency

Kiswahili: Professional proficiency

French: Intermediate
